Chemical Mill. Expects Loss for Six Months

United States Chemical Milling Corp. expects to report a loss of about \$500,000 after tax credits for the six months ended July 31, C. H. Lundquist, president, reported in a letter to shareholders.

In the like 1959 period, the firm earned \$269,443. Sales for half should be about 10% below the \$3,939,281 reported in the six months last year, he said.
